

Veteran Administration Aid & Attendance Grant

seniorhousingrelief.org

Program Overview

Senior veterans who served our country deserve respect and admiration – and affordable care and housing as they age. The Veterans Administration offers qualifying veterans the Aid and Attendance benefit program, which can help reduce these costs, but the application process averages 60 days. This can delay care and cause seniors to miss opportunities for housing.

SHORE offers a two-month grant to eligible senior veterans that allows them to move into their new communities while their Aid and Attendance application is being processed. This ensures they can get the care they need and join the community they seek without fear of not having enough money to cover their expenses.

Criteria

01 **Veterans must be moving into, or already reside in, a senior housing community.**

- The senior housing community must verify the move-in date for the veteran.
- If the veteran does not have housing already, they can work with one of SHORE's allies that assist seniors in finding housing.

02 **Veterans must be working with an Aid and Attendance assistance organization that is allied with SHORE that will determine eligibility for these benefits.**

- Additional income-related requirements must be met based on Aid and Attendance benefits qualifications.

03 **Priority will be given to veterans living in California**

- However, any veteran may qualify for this program regardless of which U.S. state they live in.
- Alternatively, if a veteran already lives in a senior community but needs to apply for Aid & Attendance to continue living in the community, they would also qualify for the program.

Payment Calculations

Senior Housing Relief for Elders Grant calculation and payment:

01

The monthly grant amount will be 90% of the veteran's maximum Aid and Attendance benefit based on qualification-

02

The organization assisting the veteran in applying for benefits will provide the expected amount to SHORE.

03

The first payment will be delivered to the senior housing community when the veteran moves into the community.

04

The second payment will be delivered to the senior housing community at the time of the veteran's next monthly billing. SHORE will require confirmation from the community that the veteran still resides there and has not yet begun receiving their Aid and Attendance benefits.
